## EXPERIÊNCIA DE TRABALHO

---

### Simplifit Academias

Set. 2025 - Atual

*Desenvolvedor Full-Stack/Mobile*

*Teresina, PI (On-site)*

- At Simplifit Academia, a chain of fitness centers focused on health, performance, and welcoming environment, I contribute to the mission of revolutionizing physical conditioning in the city through the development of innovative technological solutions.
- I actively participate in the complete application development lifecycle, from ideation to deployment, with the goal of optimizing internal processes, enhancing the customer experience, and supporting the company's growth. My responsibilities include developing features for the Back-End and handling integration plus prototyping on the Front-End, in addition to Mobile development, ensuring excellence and innovation in Simplifit's digital services.
  - **Stack:** React Native, JavaScript (NextJs); NodeJs(NestJs + Prisma); MacOS; Git; OpenAI; PostgreSQL; Docker.

### Developer Community

Nov. 2024 - Present

*Junior Full-Stack Developer*

*Remote*

- The Developer Community, founded in Teresina - PI, is a group of developers focused on building team projects using modern programming languages and industry practices, while fostering the personal and professional growth of each member.
- I actively contribute to the ideation and development of the Back-End, while also providing Front-End support when needed, in the creation of projects such as *ConstructEasy* and various freelance projects.
  - **Stack:** JavaScript (React, NextJs); NodeJs(NestJs, Express + Prisma); Linux; Git; Nginx; OpenAI; PostgreSQL; Supabase; Docker.

### Timon City Hall

Jul. 2025 - Present

*Desenvolvedor de Software*

*Timon, Ma (Hybrid)*

- As part of the City Hall of Timon, the Information Technology Agency (ATT) develops websites and maintains the municipality's online services.
- I contribute to the development, design, and implementation of the Electronic Information System (SEI) and related websites, which helped reduce costs, bureaucracy, and process redundancies within the municipality.
  - **Stack:** Wordpress; No-code; JavaScript (React, NextJs); NodeJs(NestJs + Prisma); Linux; Git; PostgreSQL; Docker.

## EDUCATION

---

### Internet Systems

Aug. 2025

*Federal institute of Maranhão(IFMA)*

*Timon, Ma*

- **English Language Scholarship Monitor**, supporting students in grammar, reading, and conversation.
- **Research fellow in an air quality monitoring project using ESP32**, NestJS, and Next.js, with a focus on school environments and public health.
- Achieved **3rd place** in the IFMA Ideathon, awarded R\$ 2,000 for a solution focused on sustainable entrepreneurship and smart cities.
- **Delivered an introductory course on game development with GameMaker**, aimed at the external community and focused on logic and game design.

## SKILLS

---

- **Tech:**

- **Back-End:** Node.js, NestJS, Express, AdonisJS, Python, Supabase
- **Front-End:** JavaScript, React, Next.js, HTML, CSS, TailwindCSS
- **Mobile:** React Native, Nativewind
- **DevOps/Other:** Docker, Git, Linux, Nginx, Vercel, Render.
- [△ More information available in my portfolio.](#)
